

Gullwing keep flying.

We create joyas.

Tribute to the 50's.

Tamarit pay tribute to one of the most emblematic cars in the history of automotive, the Mercedes Gullwing.

Your own personalized revolution.

The Tamarit Gullwing reinterprets one of the most iconic elements, the "wings", represented in a one-piece seat that rises hydraulically.

Serie edition.

Tamarit, by philosophy, does not built 2 bikes alike, but for this occasion, nine different versions have been created.

Two versions available.

Two versions are available as part of the project: Gullwing and Gullwing X.

Both versions start with the base of a Gullwing, but there is also the option of higher performance with the added features in the Gullwing X version.

Gullwing

Gullwing X

	Gullwing	Gullwing X
Triumph Engine	Thrupton 900cc Carburation	Thrupton 900cc Carburation
Capacity	78 HP	98 HP
Full engine dismantled and asembled back	●	●

Renewal of all motorcycle components	●	●
Chromed Damper	●	●
Windscreen	—	●
Keihin carburetor	—	●
Beringer brakes	—	●
Kineo radio rims	—	●

Gullwing colors.

Nine different versions have been created that correspond to the colors used by the German brand.

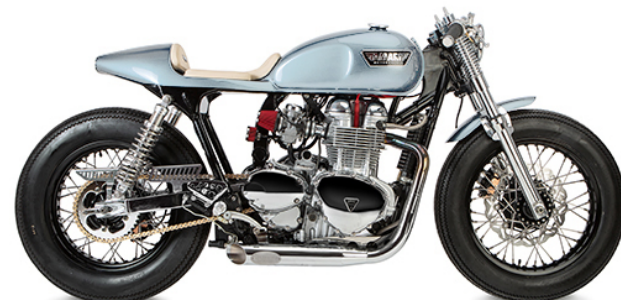

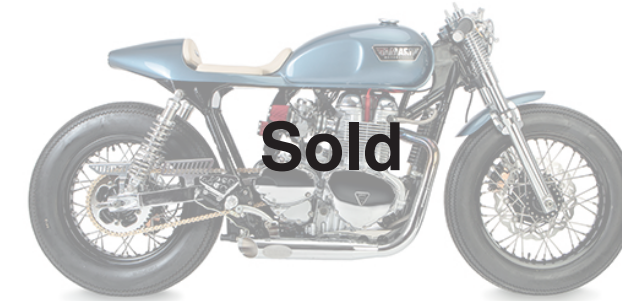

Full color elegance.

These are the colors available for both versions of the Gullwing project.

Three of them have already been sold and there are only six colors left to choose from.

Book your color and choose which of the two Gullwing versions you want for your project.

Colors available for both Gullwing versions.

Time flies.

Despite the fact that the Gullwing is not in stock, since it is a serial edition, the delivery times are shorter compared to other projects.

From the moment the request for a Gullwing is confirmed, it only takes between 45 and 90 days for the project to be ready and shipped to your own house.

Everyone is talking about them.
